▬▬▬ Professional Experience

04/2020 - Present **Lead Software Architect**, *full-time*, IT Communication & Legal
Mercedes-Benz Group AG, Stuttgart, Germany
- Technical leadership and execution of full lifecycle digitization and automation IT projects.
- Vendor management to ensure adherence to budget, schedule, and scope on project level.
- Responsible for understanding client's requirements and delivering solution architectures.
- Benchmarking and identification of tech innovations for internal and external stakeholders.
- Further development of the group-wide eDiscovery, data protection and legal IT landscape.
- Endorse investigation and compliance processes along legal requirements at headquarters.

07/2019 - 03/2020 **Senior IT Architect**, *full-time*, Powertrain Production & Data Analytics
Daimler AG, Stuttgart, Germany
- Supported driving digital transformation efforts across the broader powertrain landscape.
- Analyzed processes and requirements with international cross-departmental professionals.
- Collaborated with teams across production plants, to help and define the user experience.
- Approved implementations, supported and coordinated developers and external partners.
- Support of IT at international locations, especially within the scope of piloting new APIs.
- Participated in various work packages of complex cross-plant strategic Daimler IT projects.

02/2017 - 06/2019 **Software Engineer**, *full-time*, UI & Web Solutions
EXXETA AG, Stuttgart, Germany
- Lead an international, distributed workforce according to Scrum in an agile project setup.
- Full-stack Web and mobile development for major automotive OEMs and Tier 1 suppliers.
- Interpersonal communication in cross-cultural project teams across different time zones.
- Planned, directed, and coordinated all aspects of project activities within the work team.
- Managed budget and personnel matters including tracking and reporting to stakeholders.
- Collaborated with external service providers to develop long-term strategic partnerships.

▬▬▬ Education

09/2023 - Present **Doctor of Philosophy**, *Computer Science*
Kyrgyz State Technical University, Bishkek, Kyrgyzstan
- Research in the field of machine learning, cybersecurity, and intrusion detection systems.
- Proposing a novel ensemble deep neural network learning model for intrusion detection.
- Implementation and empirical analysis of models with respect to real network traffic data.
- Publication of findings and insights in internationally leading conferences and journals.
- Contributions to teaching, administration and acquisition of research funding.

03/2014 - 01/2017	**Master of Science**, *Computer Science and Media*, ∅1.3 Stuttgart Media University, Stuttgart, Germany • Thesis (∅1.0): Anomaly-based intrusion detection for automotive networks • I proposed the applicability of detecting cyberattacks on the vehicular CAN bus standard. • Using network recordings of a modern sedan, a neural network was trained and evaluated. • Courses: Machine learning, information privacy, secure systems, agile project management.
09/2015 - 02/2016	**Master of Science**, *Advanced Computer Systems Development*, Erasmus Grant University of the West of Scotland, Glasgow, Scotland • I attended courses in data mining, cybersecurity, signal processing, and proficiency English. • Implementation of an Android car diagnostics tool from in-vehicle sensor data using Java. • Project: Mobile car diagnostics and performance app from in-vehicle OBD-II sensor data.
10/2010 - 02/2014	**Bachelor of Science**, *Business Informatics*, ∅2.3 Ansbach University of Applied Sciences, Ansbach, Germany • Thesis (∅1.0): »Version verification of HIL test sequences in car ECU manufacturing« • In cooperation with Robert Bosch GmbH (Bosch Automotive Electronics), I developed a group-wide Java desktop application in order to provide mechanical and software engineers a tool for analyzing and verifying automotive electronic stability program test sequences. • Courses: Business economics and management, big data, software engineering, IT security.
